

How to add your QR code

Learn how to place your personal QR code on your document.

Download the file

Choose your desired template and save it on your device.

Generate your QR code

Create a unique QR code graphic leading to your desired URL. If you have access to Adobe Express, use [Adobe Express QR Code Generator](#)

Pop it into the document

Open the template file with Adobe InDesign, place the QR code into the designated area on top of the graphic.

Send to print

Set print settings to high or export a printable PDF file.
